

Government officials and Geoengineers are proposing to spray 10-20 million tons of toxic metal and chemical aerosols into the sky annually to "slow global warming", while blatantly lying and deceiving the public about the fact that **these programs have already been underway for years.**

Lab tests have disclosed extremely high levels of these metals in rain, ground water and atmospheric tests worldwide.

They are
doing this
**WITHOUT YOUR
INFORMED CONSENT**

Blood and urine tests reveal alarming levels of aluminum, strontium, barium, cadmium and other chemicals known to cause:

Cancer
Asthma
Alzheimer's
Headaches
Skin Disorders

Immune System Decline
Blurred Vision
Ringing in Ears
Muscle Weakness
...and much more

Does this internet photo show
the interior of a chemtrail plane?

Patent number: 7413145 - 'Systems and Methods For Aerial Dispersion of Materials' (filed by none other than the CIA's EVERGREEN AIR)

Would You Consent To This?

- **Monsanto's Drought, Aluminum & UV Resistant Seeds** now necessary due to geoengineering damage
- **Severe Drought, Flooding & Storms** as geoengineering has completely disrupted natural weather cycles & systems
- **Forests Devastation** Drought, extreme UV, toxic metal fallout is killing trees, causing fires
- **Shredding Ozone Layer** Geoengineering particulates are known to destroy ozone
- **Very Dangerous Levels of UV Radiation** Recent UV tests reveal off the chart UVB radiation
- **Radical Increase in Alzheimer's Disease** 4.6 Million New Cases every year
- **10,000% Increase in Autism** since 1975
- **Alarming Honeybee Die Off** even in remote areas where the only likely source of contamination is geoengineering
- **As many as 200 Species of Plants & Animals Going Extinct Every Day** over 10,000 times normal rates
- **Geoengineered Snow Storms** by artificial/chemical ice nucleation

These devastating programs are being deployed with NO studies or research whatsoever on their potential health effects.

The media, public servants, and others who should be acknowledging geoengineerings' lethal effects have remained silent and indifferent. Such organizations and individuals should be held accountable every bit as much as those directly responsible for the spraying.

USD works with doctors, scientists and medical facilities in the Tri-City area to reduce mercury in wastewater. Mercury cannot be completely removed by treatment processes. Keeping mercury and other toxic metals out of San Francisco Bay is an important component of our stewardship of the environment.

If you have questions, please call us at: (510) 477-7500.

USD Labor-Management Partnership

Lockouts and walkouts - that's what the public often hears about when unions and utilities negotiate. At USD, the old model of labor and management clashing until one side wins and the other loses doesn't apply. "We have a positive and cooperative relationship," says General Manager Richard Currie. "We collaborate to take actions that are for the betterment of the District as a whole."

This partnership recently resulted in the ratification of a new 5½ year contract. A non-traditional, non-confrontational process called "Interest-based

bargaining" was used to reach agreements.

"Some great strategies have come out of working jointly to solve problems," says Rich Czapkay, SEIU Local 1021 Chapter President. "One very successful example is our exchange of ideas to improve our safety record, which contributed to an award-winning program that we've been asked to share with other agencies."

A joint task force also tackled the issue of

planning for the retirements of key employees. "We created a program to bring replacements in well before retirees left the District," Currie explains. "Many ideas about how to transfer their years of knowledge to their successor came from the union, and our selection panels are always a mix of union and management employees."

USD plans to continue using joint task forces to improve operations and efficiency. "These collaborative groups are constantly coming up with new, cost-saving ideas that are implemented by the District," continues Currie.

"The difference is that we don't have the thought process of 'us' and 'them,'" says Czapkay. "We have good communication and respect for each other, and these things allow us to discuss concerns and come up with solutions that work for both sides. Knowing that labor and management can sit down, talk about issues and resolve them together makes USD a better place to work."

We've Got What It Takes To Treat 30 Million Gallons Per Day

It takes a lot of things to treat the 30 million gallons of wastewater USD receives every day! Here are some highlights of what we use at our treatment plant during our 24/7 operations:

1,100,000 gallons of water - 97% of which is recycled.

53,000 kilowatt hours of electricity - about 2,120 times what is used in a typical home. We produce 30% of our electricity ourselves, decreasing our daily bill from \$4,745 to \$3,650.

1,200 gallons of chlorine bleach solution to disinfect the treated wastewater. Our bleach is about 2.5 times stronger than Clorox.

764 miles of pipeline to get the wastewater from all the homes and businesses to USD.

450 gallons of polymer chemicals to improve treatment efficiency.

1,500 gallons of Ferrous Chloride - a purplish-brown liquid containing lots of iron - to reduce corrosion and improve treatment.

John Holdren, Obama's Science Czar, says: Forced abortions and mass sterilization needed to save the planet

Book he authored in 1977 advocates for extreme totalitarian measures to control the population

Forced abortions. Mass sterilization. A "Planetary Regime" with the power of life and death over American citizens.

The tyrannical fantasies of a madman? Or merely the opinions of the person now in control of science policy in the United States? *Or both?*

These ideas (among many other equally horrifying recommendations) were put forth by John Holdren,

whom Barack Obama has recently appointed Director of the White House Office of Science and Technology Policy, Assistant to the President for Science and Technology, and Co-Chair of the President's Council of Advisors on Science and Technology -- informally known as the United States' Science Czar. In a book Holdren co-authored in 1977, the man now firmly in control of science policy in this country wrote that:

- Women could be forced to abort their pregnancies, whether they wanted to or not;
- The population at large could be sterilized by infertility drugs intentionally put into the nation's drinking water or in food;
- Single mothers and teen mothers should have their babies seized from them against their will and given away to other couples to raise;
- People who "contribute to social deterioration" (i.e. undesirables) "can be required by law to exercise reproductive responsibility" -- in other words, be compelled to have abortions or be sterilized.
- A transnational "Planetary Regime" should assume control of the global economy and also dictate the most intimate details of Americans' lives -- using an armed international police force.

Impossible, you say? That must be an exaggeration or a hoax. No one in their right mind would say such things.

Well, I hate to break the news to you, but it is no hoax, no exaggeration. John Holdren really did say those things, and this report contains the proof. Below you will find photographs, scans, and transcriptions of pages in the book Ecoscience, co-authored in 1977 by John Holdren and his close colleagues Paul Ehrlich and Anne Ehrlich. The scans and photos are provided to supply conclusive evidence that the words attributed to Holdren

CDC caught in scientific fraud, perpetrating vaccine violence against blacks in shocking eugenics cover-up

by Mike Adams, the Health Ranger, NaturalNews Editor

(NaturalNews) Yesterday I wrote that Natural News is investigating a report of a massive scientific cover-up perpetrated at the very highest levels of the CDC.

Today I can report that I now have in my possession CDC documents which prove beyond any doubt that the former head of the CDC, Dr. Julie Gerberding, **actively participated in willful scientific fraud** in order to bury clinical evidence linking the MMR vaccine to a 340% increase in autism among African-American children.

Yes, the CDC knew that MMR vaccines caused autism in black babies, and its top scientists actively conspired to cover up that fact for the last twelve years.

What we are looking at here may be a **criminal conspiracy of the highest order** which, once fully exposed, will absolutely destroy the credibility of the Centers for Disease Control.

The CDC whistleblower who is stepping forward with all this information has been "haunted" by this cover-up for the last 12 years, and this person has now decided that protecting public health and scientific integrity is more important than protecting vaccine profits.

CDC head Dr. Julie Gerberding conspired to commit scientific fraud

These documents are going to be made public in mere days. They show that Dr. Gerberding and other CDC scientists actively and knowingly conspired to **commit scientific fraud** in order to hide the truth about vaccines and autism from the public. Dr. Gerberding was later rewarded for her scientific conspiracy with a lucrative executive position at vaccine maker Merck, where she still works today.

We will also present evidence showing that the CDC whistleblower who attempted to tell the truth about all this was **reprimanded by CDC leadership** as a form of punishment for not falling in line with the lies and the cover-up. CDC leadership, in other words, actively suppressed its own scientist who was following true scientific protocols.

Furthermore, those CDC scientists who perpetrated the cover-up -- including Coleen Boyle - - were then granted a coveted award from the U.S. Dept. of Health and Human Services "Autism Public Health Response Team" for keeping their mouths shut about the scientific fraud they helped perpetrate.

That's how things really work at the CDC: Suppress the science, punish any scientists who might speak out, perpetrate a massive public health fraud, then hold an awards ceremony for those who kept their mouths shut.

The CDC's racist eugenics agenda now surfaces

What is especially heinous and disturbing about these revelations is that **the CDC had in its possession irrefutable data linking MMR vaccines to autism in African-American children.**

The agency then went out of its way to retroactively alter the study data to commit scientific fraud which they knew would bring harm to countless African-American babies. Today, there are untold thousands of young black children and teens who grew up with autism disorders due entirely to the CDC's willful scientific fraud. Rather than warning the public about the autism risk of MMR vaccines, the CDC deliberately chose to hide this fact, all while lying to the African-American community by telling them "vaccines are safe!"

In essence, the CDC has perpetrated what can only be called "vaccine violence against blacks," knowing that black babies would be seriously and permanently harmed by these vaccines yet doing absolutely nothing to warn the public or require safer vaccines from drug companies. **To the CDC, black babies are always expendable.**

Vaccine violence perpetrated against black Americans

This cover-up has continued for the last twelve years, during which anyone who dared mention the word "autism" in the same sentence as "vaccines" was immediately and viciously attacked by the scientific community, vaccine trolls and the mainstream media. Yet all this time, the CDC's highest officers **were fully aware that the MMR vaccine autism link was real.** And it was black babies who were suffering the consequences of the cover-up.

Yes, a police officer in Ferguson, Missouri shot one black man and killed him, but **the CDC allowed doctors to shoot up millions of black babies with dangerous vaccines** that have caused untold pain, suffering and permanent damage across the African American community. The audacity and scale of this crime against humanity is almost unspeakable.

Even worse, the very people who were complicit in the engineered destruction of the medical career of Dr. Andrew Wakefield secretly knew his concerns were scientifically correct. They *knew* MMR vaccines caused autism, and yet they were willing to destroy the life of an honest doctor in order to cover up their own fraud and lies. The criminality of this conspiracy is vast and deeply rooted in corporate-sponsored evil and scientific fraud.

Irrefutable evidence coming out in mere days

Natural News will be publishing these CDC documents in a matter of days. The documents are shocking. The CDC has been caught red-handed. There is no covering this up, and the entire mainstream media owes all vaccine skeptics a huge apology right now: **we were right all along** to warn the public about vaccine dangers.

The web of lies and "scientific" fictions that has propped up the vaccine industry for decades is headed for collapse. Those who promoted these vaccines will rightly be seen as the racist eugenics promoters they truly are. The very term "vaccine" will soon be synonymous with "scientific fraud." The history of modern medicine changes course in just a few days. Soon,

the whole world will know that the vaccine empire operating today was built upon a foundation of callous racism, medical lies and scientific fraud.

This is all on top of the vaccine fraud we've already documented here at Natural News thanks to two courageous whistleblowers who used to work as virologists for Merck. They filed a False Claims Act with the federal government, accusing Merck of committing extreme scientific fraud with the fabrication of vaccine efficacy data.

Guess where former CDC head Dr. Gerberding now works? Also Merck.

Ban on cell towers weighed in Alameda

By Peter Hegarty

phgarty@bayareanews.com

also had a tower, T-Mobile has a tower at Alameda High School on Encinal Avenue.

ALAMEDA — Trustees with the Alameda Unified School District are looking into a ban on the installation of future cellphone towers on campuses, a move that follows parents and others voicing concern that emissions from the towers may threaten children's health.

Trustees also plan to review the district's current contracts with cellphone providers, which have towers at three schools, for loopholes to possibly have them removed.

The actions by trustees on Aug. 12 followed an AT&T representative briefing them on the company's tower at Maya Lin School on Taylor Avenue, saying it meets safety standards and provides a vital service to customers.

"The board is between a rock and a hard place on this one because we are being asked to make a scientific judgment that none of us are equipped to do," Trustee Barbara Kahn said. "We hear (the AT&T representative) saying it's safe; we have parents citing information that it's not safe. Our responsibility is essentially to the children, to the parents — those are the people that we serve and AT&T has a different agenda."

Along with the tower at Maya Lin, AT&T has a tower at Wood Middle School on Grand Avenue, where until recently Sprint

Fluoride Can Cause Cancer, Studies Show

5

1

Tweet

Share

NEW YORK, Sept. 15, 2011 /PRNewswire-USNewswire/ -- Many published human and animal studies have reported an association between fluoride and various cancers, including valid and unrefuted scientific evidence that fluoride can increase the risk of osteosarcoma (a type of bone cancer) in boys and young men, reports the Fluoride Action Network (FAN) in its recent submission to the California Environmental Protection Agency's Office of Environmental Health Hazard Assessment (OEHH).

Fluoride is commonly added to municipal water supplies and dental products with the intention of reducing tooth decay. However, current scientific evidence shows that swallowing fluoride does much more harm than good.

OEHHA requested public comments on its recently-released document "Evidence on the Carcinogenicity of Fluoride and Its Salts," (2) where OEHHA states:

"multiple lines of evidence... appear to support several plausible hypotheses: that fluoride is incorporated into bones... where it stimulates cell division of osteoblasts [bone-forming cells]...; induce genetic changes; induce other cellular changes leading to malignant transformation, and alter cellular immune response... **thereby increasing the risk of development of osteosarcomas**" (our emphasis).

The Carcinogen Identification Committee (CIC) of OEHHA's Science Advisory Board is scheduled to review the carcinogen status of fluoride on October 12-13.

FAN Executive Director Paul Connett, Ph.D., says, "Special interest groups are already protecting fluoride rather than the people who are consuming it." For example, the American Dental Association recently gave the California Dental Association \$200,000 "to assist in our effort to prevent the placement of 'fluoride and its salts' on the List of Chemicals Known to the State to Cause Cancer" (3).

Organized dentistry must overcome the following inconvenient facts if it continues to assert fluoridation is safe for everyone:

According to the National Research Council's (NRC) 2006 *Fluoride in Drinking Water* report, "fluoride appears to have the potential to initiate or promote cancers, particularly of the bone ... osteosarcoma is of particular concern ..."

Bassin et al. (2006) reported in *Cancer Causes and Control* that fluoride exposure is linked to an increased risk of osteosarcoma in boys and young men.

Bassin's Harvard University doctoral advisor, Chester Douglass, signed off on Bassin's results, but then promised his large team would refute Bassin's findings. However, Douglass's study, when finally published in the *Journal of Dental Research* (7/28/2006), was seriously flawed and incapable of refuting Bassin's results. (4)
